THE INSTITUTE FOR DATA CENTER PROFESSIONALS

The leading provider of information, education, training, and certification for data center professionals

Marist College's **Institute for Data Center Professionals (IDCP)** provides individuals and companies with vendor-neutral skills-based training and credentialing that will support and diversify the data center of the future and thereby strengthen the national economy and national security in the area of information technology.

IDCP is now offering a **18 month 35-credit intensive on-line program** where students earn **seven (7) IDCP data center certifications** and a **Marist College Certificate in Data Center Technology**. Classes begin on March 14, 2005. The registration deadline is February 7, 2005 (see reverse page for details).

75% scholarships are available through Marist College, Monroe College, AFCOM, and the human resources and training departments of corporate partners. For information on scholarships and becoming a partner contact Barbara McMullen, Director, IDCP at 845-575-3588 or barbara.mcmullen@marist.edu.

www.idcp.org

The Institute for Data Center Professionals (IDCP) acknowledges the **National Science Foundation** (NSF) for its support. Marist College and IDCP are the recipients of an NSF Partnerships for Innovation (PFI) 3-year grant beginning October 15, 2004. Marist will build on its partnerships to transform IDCP into an exemplar of an educational, training, and certification organization for data center professionals. Partners include Monroe College, IBM, Cisco Systems, Dutchess County Workforce Investment Board, Fiserv, AFCOM, Argonne National Laboratory, and Open Source Development Labs.

THE INSTITUTE FOR DATA CENTER PROFESSIONALS AT MARIST
DATA CENTER TECHNOLOGY (DCT) COURSE SEQUENCE FOR MULTIPLE CREDENTIALS

(Earn seven IDCP certifications and a Marist College Certificate in Data Center Technology online in eighteen months.)

***** Additional Courses for IDCP Certification** **2006**

Dates		DATA CENTER TECHNOLOGY CERTIFICATE		IDCP CERTIFICATE
03/13/06 – 06/02/06	Session 1	Programming in Java	IT Overview
